DCRB CIRCULAR NO. 947

To All Members of the DCRB:

RE: WORKERS COMPENSATION DATA PRO VERSION 2

The DCRB is pleased to announce the release of Version 2 of the Workers Compensation Data Pro (WC Data Pro) product. The initial release of WC Data Pro was in early 2017, Circular No. 947, and has since demonstrated its power and usefulness as a web application. WC Data Pro, available only to DCRB member carriers, provides access to aggregated premium and loss data. The product allows carrier members to benchmark their data against statewide data by various policy and claim characteristics. Another key feature is the ability to extract carrier specific data for further analysis.

This new release provides the user with additional groupings and calculations for premium and loss information, such as:

- Claim Frequency Ranges
- Loss Ratio Ranges
- Experience Modification Ranges
- Premium Ranges
- Payroll Ranges
- Report Levels

WC Data Pro is available only to carrier group users. The application has been made available to each DCRB member's Carrier Group Administrator (CGA). As is the case with most DCRB carrier products, user access is managed directly through each CGA. Please contact your CGA to request individual access and permissions as required.

The WC Data Pro User's Guide has also been updated to assist you in understanding the new features included in this release. The DCRB will conduct training sessions on an individual carrier basis upon request.

For more information regarding WC Data Pro features, please contact Chris Mathis at (215) 320-4480 or cmathis@dcrb.com or contact DCRB Central Support at (215) 320-4933 or at centralsupport@dcrb.com.
