To All Members of the DCRB:

RE: APPROVAL OF DCRB FILING NO. 2006
BASIC MANUAL UPDATES TO REMOVE OUTDATED LANGUAGE
EFFECTIVE DECEMBER 1, 2020

The Delaware Insurance Commissioner has approved DCRB Filing No. 2006 pertaining to a series of housekeeping items related to the standardization of titles and wording within the Delaware Workers Compensation Manual of Rules, Classifications and Rating Values for Workers Compensation and for Employers Liability Insurance (Basic Manual). The revisions are effective for policies with inception dates on or after December 1, 2020.

The approved Basic Manual language revisions are summarized as follows:

- Entire Manual – Updates to change all reference to the Delaware Compensation Rating Bureau from the “Bureau” to the “DCRB.”
- Section 1, Rule 1 – Updates to the Filing Requirement language for policies, endorsements, cancellations/reinstatements and binders to include the term “electronically submitted.”
- Section 1, Rule IV, A.1 – Clarification of the Manual language describing the objective of the classification procedure.
- Section 1, Rule VI, A.2 – Revisions to Manual language pertaining to Disease or Radiation loading.

The pages of the Basic Manual will be updated on the DCRB's website at later date.

For additional information, please refer to Filing No. 2006, posted under the “Filings” tab of the DCRB's website (<http://www.dcrb.com>). Please contact Drew Kratz, Manager – Underwriting & Coverage Compliance, at 215-320-4432 or dkratz@dcrb.com with any questions regarding this Circular.

RULE IV – CLASSIFICATIONS

A. GENERAL EXPLANATION

1. Objective

The ~~object~~objective of the classification system is to group ~~insureds-employers~~ into classifications so that the rating value for each classification reflects the exposures common to ~~such distinct business enterprise those employers~~-(See Rule IV, C. 2. & C. 3.). Subject to certain exceptions described later in this rule, it is the business of the insured within Delaware that is classified, not the separate employments, occupations or operations within the business.

Item B. remains unchanged.

C. ASSIGNMENT OF CLASSIFICATIONS

1. Objective of the Classification Procedure

**DELAWARE WORKERS COMPENSATION MANUAL OF RULES, CLASSIFICATIONS AND RATING VALUES
FOR WORKERS COMPENSATION AND FOR EMPLOYERS LIABILITY INSURANCE**

Approved Effective December 1, 2020

- a. The objective of the classification procedure is to assign the one basic classification which best describes each distinct business enterprise of the insured within Delaware. Subject to certain exceptions described in this Rule, each classification includes all the various types of labor found in a distinct enterprise. It is the business which is classified, not the individual employments, occupations or operations within a business. Additional classifications shall be assigned as provided below.
- b. House Bill 430 of 2004 (amending Section 2607, Title 18 of the Delaware Code) permits an insurer to develop a subclassification(s) to the ~~Bureau's~~ DCRB's classification system as approved by the Insurance Commissioner. The developing insurer shall file any such subclassification(s) with the ~~Bureau~~ DCRB and the Insurance Commissioner at least thirty (30) days prior to the proposed effective date for such subclassification(s). The insurer's filing shall demonstrate that payroll and loss data produced under any proposed subclassification(s) can be reported to the ~~Bureau~~ DCRB consistent with the ~~Bureau's~~ DCRB's uniform classification plan and statistical plan. The Insurance Commissioner must disapprove any subclassification filing for which such demonstration is not made.

2. Assignment of a Classification

Items a. and b. remain unchanged.

- c. **Authorized Classifications.** When the classification of any insured has been established by the Rating Bureau, no policy shall be issued or endorsed nor adjustment of premium made under any other or conflicting classification.

In any instance where the established classification does not describe the current operations of the insured, the insuring carrier or insured shall draw the matter to the attention of the ~~Rating Bureau~~ DCRB in writing with full particulars prior to the application of any other classification. The reclassification shall not take place until the ~~Bureau~~ DCRB Staff has received and reviewed such documentation and has replied in writing to the insured or insuring carrier agreeing with their position or otherwise advising on which class(es) to assign.

The insuring carrier is not relieved of the obligation to apply the class authorized for an insured because of lack of knowledge that the ~~Bureau~~ DCRB has established an authorized classification for that insured.

3. Assignment of Additional Classifications

- a. **Multiple Classifications/Multiple Enterprises** (Not construction or erection operations – see paragraph 6.)

Additional classifications may be used only when valid evidence supports their authorization or in conformity with the rules stated under "Standard Exceptions" and "Exclusions." Additional classes may not be added without ~~Bureau~~ DCRB authorization when their use is in violation of Manual Rules or an existing ~~bureau~~ DCRB data card.

Additional classifications shall be assigned to an insured only if the following conditions exist:

Items 1. through 3. remain unchanged.

Item b. remains unchanged.

Items 4 through 8 remain unchanged.

**DELAWARE WORKERS COMPENSATION MANUAL OF RULES, CLASSIFICATIONS AND RATING VALUES
FOR WORKERS COMPENSATION AND FOR EMPLOYERS LIABILITY INSURANCE**

Approved Effective December 1, 2020

When a carrier plans to use the supplemental loading, they shall supply the ~~Bureau~~ DCRB with an inspection report either by an insurance carrier, Industrial Accident Board or some outside source which supports the abnormal disease exposure. Based on this report, the Rating ~~Bureau~~ DCRB will authorize the supplemental loading and publish it on the ~~bureau~~ DCRB data card for a minimum of one year. The supplemental loading can be removed only by an inspection report from an insurance company, or some other outside agency evidencing the abnormal exposure no longer exists. For Example:

**DELAWARE WORKERS COMPENSATION MANUAL OF RULES, CLASSIFICATIONS AND RATING VALUES
FOR WORKERS COMPENSATION AND FOR EMPLOYERS LIABILITY INSURANCE**

was not experience-rated in the policy period expiring immediately prior to the application of the safety credit, "C" will be set at 0.050. Safety credit packages will be rounded to the nearest whole percent.

9. Bureau DCRB Rating Values

A Delaware Workplace Safety Program Correction Factor shall be included in loss costs and residual market rates. This factor shall be designed to make the Workplace Safety Program revenue neutral in the aggregate.

10. Appeals

The Bureau's DCRB's determination of the percentage credit for an individual risk eligible for the Delaware Workplace Safety Program may be appealed pursuant to Rule XVI, APPEALS FROM APPLICATION OF THE RATING SYSTEM PROCEDURE, Section 1 of this Manual.

REGULAR – A pattern of 40 hours per week or any other pattern that appears on a continuing basis.

H. DELAWARE CONSTRUCTION CLASSIFICATION PREMIUM ADJUSTMENT PROGRAM

The total construction classification credit amount, in dollars, must be calculated and then divided by the total policy premium at Bureau DCRB Rating Values - including construction and non-construction classifications. The result would be the percentage credit which is to be applied to the policy. When calculating the total policy credit the percentage shall be rounded to the nearest whole number with .5 being rounded upward (as an example, 4.4 rounded to 4% and 4.5 rounded to 5%).

The insured shall submit the required payroll and hours worked information to the Delaware Compensation Rating Bureau, Inc. for calculation of any applicable credit. The carrier shall, upon audit, verify the information that was submitted by the insured and used in the calculation of the credit. If the carrier discovers an error in the original request for policy credit, the revised information must be submitted to the Delaware Compensation Rating Bureau, Inc. for recalculation. If the insured does not furnish records to verify the payrolls and hours worked originally submitted and used in the calculation of the credit, there shall be no credit applied to the policy.

The credit authorized by the Delaware Compensation Rating Bureau, Inc. shall appear on Item 4 of the policy. If the credit applicable to the policy is not available at the time of policy issuance, the carrier shall endorse the policy to provide the appropriate credit information once a qualifying application has been processed and the Bureau DCRB has notified the carrier of the credit determined on the basis of such application.

Report Delaware Construction Class Premium Credit on the information page and unit statistical report under **Code 9046**.

Carriers are required to use the approved form to notify all their insureds, who have one or more construction classifications on their policy, that they may be eligible for a premium adjustment credit.

2. "Construction on classifications" are those classifications subject to the following code numbers:

601	611	646	653	659	665	673	681
603	615	647	654	660	666	674	682

**DELAWARE WORKERS COMPENSATION MANUAL OF RULES, CLASSIFICATIONS AND RATING VALUES
FOR WORKERS COMPENSATION AND FOR EMPLOYERS LIABILITY INSURANCE**

Approved Effective December 1, 2020

3. The ~~Bureau~~-[DCRB](#) will inform the carrier and employer of the credit percentage. The ~~Bureau~~-[DCRB](#) will then record on the experience rating sheet (when applicable) the credit percentage to apply to the policy. Code 9046 is to be used in policy issuance and statistical reporting to record the construction premium credit, which is to be applied after the experience modification and after the deviation or schedule rating adjustments, but before calculating the premium discount and before adding the expense constant.

4. **Appeals**
The ~~Bureau's~~-[DCRB's](#) determination of an individual risk's eligibility for and/or the percentage of credit under the Delaware Construction Classification Premium Adjustment Program may be appealed pursuant to Rule XVI, APPEALS FROM APPLICATION OF THE RATING SYSTEM PROCEDURE, Section 1 of this Manual.

DRIVERS (Payroll Allocation)

It is the ~~Bureau's~~ [DCRB's](#) position that the payroll of drivers, chauffeurs or their helpers which cannot be allocated to a specific classification because they have duties common to more than one classification shall be assigned to the governing classification of the two or more classifications to which their work belongs.

The above ruling does not supersede any Manual rules found in Section 2 of the Delaware Manual, nor does it supersede any Manual wording footnotes found in Section 2 regarding the allocation of payroll for the 800-series of classifications (Trucking and Storage Industry).

Example:

Insured X has approved classifications Code 0034 and Code 865. If insured X had separate crews of drivers that did not interchange their duties between the two operations, the separate crews would have their payroll allocated to the separate respective classifications.

If no such separate crew existed and the drivers, etc. have duties common to both operations, their payroll would be assigned to the governing classification exclusive of miscellaneous employee payroll.

Refer to Part Four – Premium Computation Tables. For Three Year Plans, values are determined similarly for each of the years based on each annual estimated Standard Premium, and the sum of these values is the provision for expense and profit or contingency. The value for expenses shown in this example is equal to $\$102,500 \times \$500,000 \times .205$. Note that the Tables of Expense Ratios, and other factors used in the calculations, are subject to revision in accordance with modifications adopted by ~~this~~ [the Bureau DCRB](#). It is effective 12:01 A.M., **December 1, 2020**, with respect to all policies, the effective date of which is **December 1, 2020** or thereafter, subject to the following express conditions, for the insurance companies, corporations and associations listed herein and for no other insurance company, corporation or association.

The Delaware Compensation Rating Bureau shall hereinafter be referred to as the “DCRB”.

- Section 3 – Endorsements
- Section 4 – Retrospective Rating Plans
- Section 5 – Experience Rating Plan
- Section 6 – Merit Rating Plan

C. Definitions

The following words are referenced in House Bill 241 of 1993 or have been used in this Manual with meanings intended to be consistent with the requirements of that Act. For purposes of improving the understanding of the Manual, definitions of these words as used elsewhere in this Manual are set forth below.

1. **Data Card** –DCRB Data Cards are issued by the Delaware Compensation Rating Bureau, Inc. These data cards provide the risk name, location, file number, authorized classification(s) and if applicable the risk's experience modification for a minimum of one year.

Risks approved for the Delaware Construction Classification Premium Adjustment Program and any other applicable credit programs will be shown on these data cards.
2. **DCRB Loss Costs** – Dollar amounts per unit of exposure attributable to the payment of losses under workers compensation and employers liability coverages, filed by the DCRB based on the aggregate experience of all DCRB members and approved by the Insurance Commissioner.
3. **DCRB Rating Values** – All parameters filed by the DCRB and approved by the Insurance Commissioner, and which are used either mandatorily or by option of carriers for purposes of pricing workers compensation and employers liability coverages. Such DCRB rating values include DCRB Loss Costs, experience rating plan values such as Expected Loss Cost Factors, Credibility, Maximum Value of One Accident, and Credibility Weighted Maximum Value Charge, retrospective rating plan values such as the Table of Expected Loss Ranges, Excess Loss Pure Premium Factors, Retrospective Pure Premium Development Factors, and expense parameters applicable to U.S.L. &H.W. coverages such as Premium Discounts, Expected Loss Ratio, Expense Ratios, Tax Multipliers and Loss Conversion Factors.
4. **Carrier Rate** – The amount per unit of exposure which an insurance carrier charges for workers compensation and employers liability insurance.

FOR WORKERS COMPENSATION AND FOR EMPLOYERS LIABILITY INSURANCE**

Approved Effective December 1, 2020

6. **Loss Cost** – Dollar amounts per unit of exposure attributable to the payment of losses under workers compensation and employers liability coverages. Loss Costs may be developed either by the DCRB based on the aggregate experience of all DCRB members or may be established by individual carriers based on their own supporting information.
7. **Prospective Loss Costs** – Historical aggregate losses projected through development to their ultimate value and through trending to a future point in time including all loss adjustment or claim management expenses and loss-based expenses excluding other operating expenses, assessments, taxes and profit or contingency allowances in this Manual. The term "Loss Cost" is synonymous with Provision for Claim Payment.
8. **Rating Value** – A parameter or number used in pricing workers compensation or employers liability insurance coverages. Rating Values may be established by the DCRB or by individual carriers. Where individual carriers have established Rating Values different from those of the DCRB, the carrier's values supersede those of the Bureau for purposes of that insurer's policies.
9. **Rating Effective Date (RED)** is the earliest date that a specific experience rating or merit rating adjustment is applied to a policy.

RULE IV – CLASSIFICATIONS

A. GENERAL EXPLANATION

1. Objective

The objective of the classification system is to group employers into classifications so that the rating value for each classification reflects the exposures common to those employers (See Rule IV, C. 2. & C. 3.). Subject to certain exceptions described later in this rule, it is the business of the insured within Delaware that is classified, not the separate employments, occupations or operations within the business.

Item B. remains unchanged.

C. ASSIGNMENT OF CLASSIFICATIONS

1. Objective of the Classification Procedure

DELAWARE WORKERS COMPENSATION MANUAL OF RULES, CLASSIFICATIONS AND RATING VALUES FOR WORKERS COMPENSATION AND FOR EMPLOYERS LIABILITY INSURANCE

Approved Effective December 1, 2020

- a. The objective of the classification procedure is to assign the one basic classification which best describes each distinct business enterprise of the insured within Delaware. Subject to certain exceptions described in this Rule, each classification includes all the various types of labor found in a distinct enterprise. It is the business which is classified, not the individual employments, occupations or operations within a business. Additional classifications shall be assigned as provided below.
- b. House Bill 430 of 2004 (amending Section 2607, Title 18 of the Delaware Code) permits an insurer to develop a subclassification(s) to the DCRB's classification system as approved by the Insurance Commissioner. The developing insurer shall file any such subclassification(s) with the DCRB and the Insurance Commissioner at least thirty (30) days prior to the proposed effective date for such subclassification(s). The insurer's filing shall demonstrate that payroll and loss data produced under any proposed subclassification(s) can be reported to the DCRB consistent with the DCRB's uniform classification plan and statistical plan. The Insurance Commissioner must disapprove any subclassification filing for which such demonstration is not made.

2. Assignment of a Classification

Items a. and b. remain unchanged.

- c. **Authorized Classifications.** When the classification of any insured has been established by the Rating Bureau, no policy shall be issued or endorsed nor adjustment of premium made under any other or conflicting classification.

In any instance where the established classification does not describe the current operations of the insured, the insuring carrier or insured shall draw the matter to the attention of the DCRB in writing with full particulars prior to the application of any other classification. The reclassification shall not take place until the DCRB Staff has received and reviewed such documentation and has replied in writing to the insured or insuring carrier agreeing with their position or otherwise advising on which class(es) to assign.

The insuring carrier is not relieved of the obligation to apply the class authorized for an insured because of lack of knowledge that the DCRB has established an authorized classification for that insured.

3. Assignment of Additional Classifications

- a. **Multiple Classifications/Multiple Enterprises** (Not construction or erection operations – see paragraph 6.)

Additional classifications may be used only when valid evidence supports their authorization or in conformity with the rules stated under "Standard Exceptions" and "Exclusions." Additional classes may not be added without DCRB authorization when their use is in violation of Manual Rules or an existing DCRB data card.

Additional classifications shall be assigned to an insured only if the following conditions exist:

Items 1. through 3. remain unchanged.

Item b. remains unchanged.

Items 4 through 8 remain unchanged.

9. Classification Appeals

**DELAWARE WORKERS COMPENSATION MANUAL OF RULES, CLASSIFICATIONS AND RATING VALUES
FOR WORKERS COMPENSATION AND FOR EMPLOYERS LIABILITY INSURANCE**

Item 10. remains unchanged.

Items D. and E. remain unchanged.

RULE V – PREMIUM BASIS remains unchanged.

RULE VI – RATING VALUES AND PREMIUM DETERMINATION

A. DCRB RATING VALUES

1. DCRB Loss Cost

DCRB Loss Costs – Dollar amounts per unit of exposure attributable to the payment of losses under workers compensation and employers liability coverages, filed by the DCRB based on the aggregate experience of all DCRB members and approved by the Insurance Commissioner.

2. Disease Or Radiation Loading

- a. A supplemental disease loading (e.g. Code 0176) may apply to certain basic classifications (e.g. Code 513). The supplemental disease loading is an additional charge. It is not included within the rating value of the basic classification to which it is assigned. Once authorized, a supplemental disease loading may only be removed upon approval of the Delaware Compensation Rating Bureau, Inc.
- b. The Delaware Workers Compensation Law includes "all occupational diseases arising out of and in the course of employment." The classification and loss cost values applicable to basic classifications without a corresponding supplemental disease loading include the usual exposure to diseases with those classifications.
- c. A supplemental occupational disease loading may be applied to the carrier rate for any individual risk where the occupational disease hazard is abnormal. When a carrier plans to use the supplemental loading, they shall supply the DCRB with an inspection report either by an insurance carrier, Industrial Accident Board or some outside source which supports the abnormal disease exposure. Based on this report, the Rating DCRB will authorize the supplemental loading and publish it on the DCRB data card for a minimum of one year. The supplemental loading can be removed only by an inspection report from an insurance company, or some other outside agency evidencing the abnormal exposure no longer exists. The supplemental disease loading is non-ratable in the experience and retrospective plans.

Items B. through D. remain unchanged.

E. PREMIUM MODIFICATION EXPERIENCE RATING PLAN

Item 1. remains unchanged.

2. Copies of Experience Rate Calculation

Item a. remains unchanged.

- b. The DCRB shall furnish to any insured employer upon his written request, or to the Home Office or Branch Office of any member of the DCRB upon the written request of the employer, a copy of the experience rating calculation of that employer at an appropriate charge.

7. Qualified Employer

The DCRB will be informed when an employer passes the inspection. The DCRB will then record on the experience rating calculation sheet the credit percentage to apply to the renewal policy. Code 9880 is to be used in policy issuance and statistical reporting to record the Safety Program premium credit, which is to be applied after experience modification and after deviation or schedule rating adjustments but before calculating premium discount and before adding of expense constant.

For Example:

975	Restaurant	\$350,000	\$4.39	\$15,365	
953	Clerical	80,000	.54	432	
	Sub-Total			15,797

Where "C" is the credibility of the qualified employer in the uniform Experience Rating Plan for the policy period expiring immediately prior to the application of the safety credit. If the qualified employer was not experience-rated in the policy period expiring immediately prior to the application of the safety credit, "C" will be set at 0.050. Safety credit packages will be rounded to the nearest whole percent.

9. DCRB Rating Values

A Delaware Workplace Safety Program Correction Factor shall be included in loss costs and residual market rates. This factor shall be designed to make the Workplace Safety Program revenue neutral in the aggregate.

10. Appeals

The DCRB's determination of the percentage credit for an individual risk eligible for the Delaware Workplace Safety Program may be appealed pursuant to Rule XVI, APPEALS FROM APPLICATION OF THE RATING SYSTEM PROCEDURE, Section 1 of this Manual.

REGULAR – A pattern of 40 hours per week or any other pattern that appears on a continuing basis.

H. DELAWARE CONSTRUCTION CLASSIFICATION PREMIUM ADJUSTMENT PROGRAM

The total construction classification credit amount, in dollars, must be calculated and then divided by the total policy premium at DCRB rating values - including construction and non-construction classifications. The result would be the percentage credit which is to be applied to the policy. When calculating the total policy credit the percentage shall be rounded to the nearest whole number with .5 being rounded upward (as an example, 4.4 rounded to 4% and 4.5 rounded to 5%).

The insured shall submit the required payroll and hours worked information to the Delaware Compensation Rating Bureau, Inc. for calculation of any applicable credit. The carrier shall, upon audit, verify the information that was submitted by the insured and used in the calculation of the credit. If the carrier discovers an error in the original request for policy credit, the revised information must be submitted to the Delaware Compensation Rating Bureau, Inc. for recalculation. If the insured does not furnish records to verify the payrolls and hours worked originally submitted and used in the calculation of the credit, there shall be no credit applied to the policy.

The credit authorized by the Delaware Compensation Rating Bureau, Inc. shall appear on Item 4 of the policy. If the credit applicable to the policy is not available at the time of policy issuance, the carrier shall endorse the policy to provide the appropriate credit information once a qualifying application has been processed and the DCRB has notified the carrier of the credit determined on the basis of such application.

Report Delaware Construction Class Premium Credit on the information page and unit statistical report under **Code 9046**.

Carriers are required to use the approved form to notify all their insureds, who have one or more construction classifications on their policy, that they may be eligible for a premium adjustment credit.

2. **“Construction on classifications”** are those classifications subject to the following code numbers:

601	611	646	653	659	665	673	681
603	615	647	654	660	666	674	682

608	643	651	657	663	669	677	695
609	645	652	658	664	670	679	

3. The DCRB will inform the carrier and employer of the credit percentage. The DCRB will then record on the experience rating sheet (when applicable) the credit percentage to apply to the policy. Code 9046 is to be used in policy issuance and statistical reporting to record the construction premium credit, which is to be applied after the experience modification and after the deviation or schedule rating adjustments, but before calculating the premium discount and before adding the expense constant.

4. Appeals

DRIVERS (Payroll Allocation)

It is the DCRB's position that the payroll of drivers, chauffeurs or their helpers which cannot be allocated to a specific classification because they have duties common to more than one classification shall be assigned to the governing classification of the two or more classifications to which their work belongs.

The above ruling does not supersede any Manual rules found in Section 2 of the Delaware Manual, nor does it supersede any Manual wording footnotes found in Section 2 regarding the allocation of payroll for the 800-series of classifications (Trucking and Storage Industry).

Example:

Insured X has approved classifications Code 0034 and Code 865. If insured X had separate crews of drivers that did not interchange their duties between the two operations, the separate crews would have their payroll allocated to the separate respective classifications.

If no such separate crew existed and the drivers, etc. have duties common to both operations, their payroll would be assigned to the governing classification exclusive of miscellaneous employee payroll.

The expense and profit or contingency (excluding taxes) is determined, for One Year Plans by multiplying the standard premium by the expense ratio found in either the Stock or Non-Stock "Tables of Compensation Expense Ratios – Excluding Taxes, including profit or contingencies." Refer to Part Four – Premium Computation Tables. For Three Year Plans, values are determined similarly for each of the years based on each annual estimated Standard Premium, and the sum of these values is the provision for expense and profit or contingency. The value for expenses shown in this example is equal to $\$102,500 \times \$500,000 \times .205$. Note that the Tables of Expense Ratios, and other factors used in the calculations, are subject to revision in accordance with modifications adopted by the DCRB. Therefore, care should be taken to use current ratios and factors when preparing a plan calculation.
