

DELAWARE COMPENSATION RATING BUREAU, INC.
F CLASS FILING

Expense Study

The following exhibits are used in the development of specific expense provisions to be used in the DCRB's proposed F-Class filing. The provisions are for commission & brokerage, other acquisition, general and loss adjustment expense, premium discount and uncollectible premium.

Exhibit I of the attachment presents summary figures for standard earned premium, general expenses, and total production costs from the last three calendar years for stock agency companies only. The data is drawn from the Delaware Calendar Year Expense Data Call submissions. The data has been adjusted to include the experience for large deductible policies.

Exhibit I-A develops standard earned premium at both net and gross bases after adjusting for large deductible policies and removing expense constant dollars.

Exhibit II shows the development of the expense constant offset that is carried forward to Exhibit I.

Exhibit III shows the calculation of the loss adjustment expense provision as a function of the incurred losses. The loss adjustment expense factor is based on all-company experience and is developed from the same source of data as Exhibit I above. We selected a three-year average of loss adjustment expense ratios to direct incurred losses including large deductibles on a gross basis.

Exhibit IV-A shows the development of an average provision for premium discount based upon the experience of companies using the Schedule Y premium discount table. The data used by the DCRB for this purpose is Unit Statistical Plan data. This exhibit forms the basis for Exhibit IV-B, which develops the average interstate premium discount for Schedule Y companies.

Exhibit V develops the provision for uncollectible premium based on the ratio of uncollectible premium to gross written premium. The data used is courtesy of NCCI, Inc.
