DCRB Information Bulletin #003

To All Members of the DCRB:

Re: New Calendar-Accident Years Call Reporting Requirements For Financial Data Manager Users

As previously announced in DCRB Circular [1025](#), there will be a new reporting requirement for a series of Calendar-Accident Year Calls. The Calendar-Accident Year Calls will be due on March 15, 2024 and during the first year of collection, we will collect five calendar years of data. Additional information is now available in the [Financial](#) section under the Data Reporting tab of our website.

“The additional insights from this new data reporting requirement will enable our organization to better analyze premium and loss development patterns, severity, and frequency trends,” says DCRB President Bill Taylor.

Call instructions, template layouts, and an edit matrix are available for each of the five new Calendar-Accident Year Calls to allow additional time for data reporters to meet this new requirement. Additional information regarding the 2024 financial call cycle, including access to FDM calls valued as of 12/31/23, will be available early February.

William V. Taylor
President
